

ICMI

Capacity and Network Project

CANP 2 Central America and the Caribbean (2012)

The Capacity and Networking Project (CANP) is a development project of the International Commission of Mathematical Instruction (ICMI) supported by the International Mathematical Union (IMU), UNESCO and the International Council for Science (ICSU) as well as regional governments and institutions.

The project is focused on providing teacher-educators in developing countries with enhanced mathematical and pedagogical expertise and knowledge.

The first workshop “Escuela seminario internacional Construcción de Capacidades en Matemáticas y Educación Matemática” was held for 2 weeks in August, 2012 in San Jose, Costa Rica.

The event brought together 67 researchers and educators from Colombia, Panama, Venezuela, the Dominican Republic, Spain, Mexico, Cuba and Costa Rica which included 23 different conferences, courses, forums and symposia while focusing on important themes in Mathematics and Mathematics Education.

Main outcomes:

The most important result of CANP 2012 Costa Rica was the founding of the Mathematics Education Network of Central America and the Caribbean, which seeks to enhance capacities in Mathematics and Mathematics Education in the region.

The website can be found at: <http://www.redumate.org/>

As a follow up meeting the First Mathematics Education Congress for Central America and the Caribbean and the General Assembly of the Mathematics Education Network for Central America and the Caribbean, was held in Santo Domingo, Dominican Republic, November 5th–8th, 2013.

Current projects:

The next General Assembly of the network and Network conference will be held in Cali, Colombia in 2017.
