

Teoman Özer has submitted a report for CDC Support Program.

Personal data

-----

Name: Teoman Özer

Address:

İstanbul Technical University, Faculty of Civil Engineering  
Division of Mechanics, 34469 Maslak

City: İstanbul

State:

Postal code: 34469

Country: Turkey

e-Mail: tozer@itu.edu.tr

Supported activity

-----

Support: Conference support

Details

-----

Country and city: Turkey, İstanbul

Dates of activity: 2017-08-14 - 2017-08-17

Amount of CDC Support: 1000 Euro

Itemized use of funds

-----

Transportation cost details:

Transportation cost amount:

Accommodation cost details:

5 nights for 13 invited speakers

Accommodation cost amount: 500 Euro

Living cost details:

Launch for four days for 280 people

Living cost amount: 500 Euro

Other cost details:

Other cost amount:

-----

Amount total: 1000 (Euro)

Short report:

III. International Conference on Symmetries, Differential Equations and Applications (SDEA-III) has been organized at Istanbul Technical University, Faculty of Civil Engineering Conference Hall, 14-17 August 2017.

This event is the third conference in the series.

The first SDEA-I was held in Johannesburg, South Africa dedicated to the bicentenary of Evariste Galois in 2012.

The second SDEA-II was held in Islamabad, Pakistan in 2014, dedicated to the 150 years of the presentation of James Clerk Maxwell on his Theory of Electromagnetism to the Royal Society.

The third SDEA-III was dedicated to Centenary of Noether's Theorem.

In this conference, we have intended to concentrate on most of the recent advances in the applications of Lie groups including a wide area of topics in interdisciplinary studies in theoretical and applied sciences. Our aim was to bring together academicians and researches from all over the World.

I think that SDEA-III was a successful conference by providing a productive forum for academicians and students from not only Mathematics and Physics but also other branches such as Engineering and Social Sciences to discuss and share the latest developments in the theory and applications of Lie groups.

I would like to inform again that the selected papers of SDEA-III will appear in Journal of Physics: Conference Series (JPCS) and The Springer Proceedings Book Series. The manuscripts, prepared according to the author guidelines, should be submitted by 29 December 2017. Related information can be found at conference website, [www.sdea3.org](http://www.sdea3.org)

In this conference, there will be 18 parallel sections with 85 presentations and 60 speakers including 13 invited speakers from 12 different countries and 17 poster representations during 4 days.

We would like to extend special thanks to the invited speakers: Professor Akbar, Professor Cheviakov, Professor Citti, Professor Gürses, Professor Kac, Professor Kalantarov, Professor Khaliq, Professor Meleshko, Professor Muriel, Professor Nucci, Professor Olver, Professor Soltanov, Professor Reid, and Professor Vinogradov.

We would like to thank again to Conference Sponsors: İstanbul Metropolitan Municipality, Sarıyer Municipality, İstanbul Technical University, International Mathematical Union, Turkish Airlines, TÜBİTAK, The Scientific, Technological Research Council of Turkey and SIAM, Society for Industrial and Applied Mathematics making this conference a successful event.

Prof. Dr. Teoman Özer  
The Chair of SDEA-III
