

## CWM funding call for 2019

<http://www.mathunion.org/cwm/>

The IMU [Committee for Women in Mathematics](#) (CWM) invites proposals for funding of up to €3000 for activities or initiatives taking place in 2019, aimed at either:

- a) Establishing or supporting networks for women in mathematics, preferably at the continental or regional level, and with priority given to networks in developing or emerging countries. Help could include, for example, funding meetings, organizing round-tables at mathematical regional events, or support in creating websites. Please note that CWM will normally not fund activities taking place in the same or nearby location as one that has already been funded in the period 2015-2018 (see [www.mathunion.org/cwm/](http://www.mathunion.org/cwm/) for the list).
- b) Organizing a mathematical school open to all with all women speakers and mainly women organizers. This type of mathematical school, which should include a significant proportion of time devoted to background and introductory material, can be a very effective way of showcasing the contributions of women mathematicians and creating an opportunity for female students to be in touch with women leaders, without excluding male students. Expenses covered by CWM could include, for example, costs for speakers, women organisers, or for women participants.
- c) Other ideas for researching and/or addressing issues encountered by women in mathematics may also be considered.

Note that funding for individual research projects is not available.

Proposers should write a short description (no more than two pages) explaining the nature of their activity and how it fulfils one of the above aims, as well as indications on how the CWM money would be spent. Proposals should further include information about other sources funding if available.

There will be only one call for applications regarding activities in 2019 with deadline **15 December, 2018**. Applications should be sent to [applications-for-cwm@mathunion.org](mailto:applications-for-cwm@mathunion.org).

The authors of successful applications will be informed no later than 31 January, 2019. Depending on demand, successful applications may not be funded in full. Successful applicants will be asked to send a short report of the activity with details of how the budget was spent before the end of 2019.
