Create your own Jotform

In addition to the grant from the DHST, the ICHM also receives grants from elsewhere currently totalling 5000 Euros annually. This is used both for early career scholars (topping up the DHST grant) and for established scholars. Hence our annual income last year was 6500 Euros (see Financial Report).

2. Past Activities, Future Plans, and Relations with the DHST

a. Activity Report *

Please describe briefly the main academic and outreach activities of your Commission / Section since the previous report. Tell us about the events and publications organized or sponsored; early career scholars supported in any way; new initiatives taken, etc.

Feel free to provide a short narrative description, or a list, or a synopsis, whatever is more convenient. Also, feel free to include links to your initiatives. Leave details of expenses incurred for a later section of this form. At this point, the DHST Council simply wishes to appreciate the range of activities undertaken by the Commissions / Sections.

Report:

Activity Commission on the History of Mathematics (10-12 June 2022)

Now create your own Jotform - It's free!

Create your own Jotform

The ICHM awarded funding of 1100 Euros to help with the participation of early career and independent scholars. (Payment is currently in progress so it does not yet appear in the Financial Report.)

International Congress of Mathematicians (6-14 July 2022)

The four ICHM prize winners:

Sonja Brentjes (Germany) – May Prize

Christine Proust (France) – May Prize

François Lê (France) – Montucla Prize (early career scholar)

Brigitte Stenhouse (UK) – Montucla Prize (early career scholar)

spoke at the (Virtual) International Congress of Mathematics in July 2022. The Congress was due to be held in St Petersburg but, due to the war, was moved online. Had the ICM been held in person, the prize-winners attendance would have been funded by the ICHM.

Early Career Scholars

Under the ICHM early career scholar grant scheme, 328.55 Euros was awarded to help two early career scholars attend conferences.

Alternatively, you can upload a PDF file of your report:

Browse Files

Please tell us about your Commission / Section plans, both in the near future (concrete activities you hope to undertake in 2023, new initiatives in the making, etc.) and in the longer term (what is your vision for your Commission / Section).

If you are planning activities in 2023 that require the financial support of the DHST please do explain and provide a realistic estimation of costs. We are happy to support our commissions and sections but kindly ask you to give realistic estimates and not go for the maximum amounts automatically.

Future plans

CONFERENCES

Joint Mathematics Meeting (Boston, 4-7 January 2023)

Co-sponsorship of the Special Session on the History of Mathematics but with no financial implication. This meeting, which has international participation, provides the ICHM with a good opportunity to promote its activities, especially to early career scholars.

BSHM Research in Progress (University of Oxford, 25 February 2023)

This meeting is for PhD students and early career scholars. We anticipate a funding application of approximately 500 EUR to assist participants with travel costs.

DMV History of Mathematics (Naunhof, 15-19 March 2023)

This biennial meeting usually attracts about 50 scholars and the ICHM has agreed to co-sponsorship up to 1000 EUR to assist early career scholars and independent scholars with registration fees.

33rd Novembertagung (University of Rijeka, May 2023)

pandemic it was not held in November 2022. It is now planned to take place in Croatia in May 2023. We anticipate a funding application of approximately 2000 EUR to assist participants with travel costs. We might also be asked to support online participation/activities.

GENERAL PLANS

The ICHM is keen to promote its activities via social media and would welcome the advice of the DHST and its members on how to do this most effectively. We also wish to expand our activities in under-developed countries* and are actively seeking out collaborators to assist with this.

*For example, in helping to arrange a satellite meeting for the Novembertagung in, say, India. We could assist participants with their travel costs within India to the meeting where they would have the opportunity to meet together and to join the European meeting online together.

Alternatively, you can upload a PDF file of your future plans

c. Feedback (optional)

If you have comments, suggestions, criticisms or questions regarding the relation between your Commission/Section and the DHST, please share them with us.

Feel free to tell us how you think the DHST Council could be more useful for your Commission/Section, how you think we could improve our work, what you think is missing, etc.

Feedback

d. DHST Website and Digital Engagement (optional)

We are planning a new website for the DHST and we would like to hear if you have any suggestions or ideas of things you would like to see implemented there (for instance, initiatives directed to early career scholars, bibliography, etc). If you or someone from your community might be interested in participating in a brainstorming session on the website, please do leave their email addresses below. Additionally, if you have suggestions regarding digital engagement more generally, i.e., social media visibility and strategies, please share them with us.

Suggestions

Initiatives directed towards early career scholars. For example, the ICHM has a grant scheme for early career scholars so it would be very helpful to be able to advertise this on the DHST website.

I would suggest that when you invite commissions to submit their annual reports you ask them to check the DHST website to make sure that it is up-to-date as far as their own commission is concerned. You could even have a tick

d. Requested grant (budget proposal is mandatory)

Please give a brief overview below of your planned expenses for 2023. The maximum amount you can apply for is 2000 EUR. The grant can be used for the following expenses:

1. Online activities (limited to 500 EUR). This includes your website but can also include e.g. Zoom licenses, web maintenance, etc. if your online activities are focused on supporting historically underrepresented groups, scholars at risk and/or precariously employed people, then the limit can be raised to 800 EUR.
2. Administrative costs (limited to 200 EUR). This includes bank fees, postal expenses, etc.
3. Financial support (e.g. conference and research travel grants, publication costs, awards, etc.) to early career scholars, historically underrepresented groups, scholars at risk, and precariously employed people.

If there is any essential activity that is not covered by these categories and that you would like to fund, please contact Marcos Cueto and Liesbeth De Mol at the latest by November 10, 2022.
