La tradition didactique française au delà des frontières

**Exemples de collaborations avec
l'Afrique, l'Amérique latine et l'Asie**

**Commission française pour
l'enseignement des mathématiques
Juillet 2016**

Four visions on collaborations

C. Knipping (Germany): *View of the French tradition, especially through the lens of validation and proof*

M. Maschietto (Italy): *Didactic interactions between France and Italy – a personal journey*

F. Chellougui (Tunisia): *Didactic interactions between France and African countries - the case of Tunisia*

A. Romo Vazquez, F. Pluvinage (Mexico): *Didactic interactions between France and Latin-America - the case of Mexico*
