## 1. Welcome from the Convenor

The Local Organising Committee and International Program Committee have worked hard to create a Congress that allows delegates to enjoy their time in Sydney and that achieves local, regional and global legacies in mathematics education. We are looking forward to an inclusive Congress program that draws on and celebrates participant diversity and highlights the crucial role of mathematics in all levels of schooling and in society more broadly.

It is the responsibility of every delegate to ensure that we are all able to engage in robust discussions while ensuring that everyone feels respected and safe. We expect that everyone will:

- Be considerate and respectful of others
- Be aware of the welfare of others
- Refrain from behaviour or speech that is intimidatory, discriminatory or abusive.
- Respect the right of speakers to present their work free from disruption or harassment.
- Refrain from displaying political opinions in any form.
- Alert the Congress Safety Officer (at the Registration desk) if you notice these expectations being breached, or someone in distress.

Failure to comply with these expectations may result in expulsion from the Congress without reimbursement of fees.

I am looking forward to meeting you Sydney very soon and to participating with you in stimulating and generative conversations that will contribute to improved mathematics education for all students.

Prof. Kim Beswick  
Convenor, ICME-15
