IMU AO Circular Letter 8/2026

To: The Adhering Organizations of the International Mathematical Union (IMU)

From: Christoph Sorger, IMU Secretary General

The IMU endorses the Leiden Declaration on Artificial Intelligence and Mathematics

Dear colleagues

The "[Leiden Declaration on Artificial Intelligence and Mathematics](#)" — [published](#) on June 2, 2026 — addresses key questions currently being raised about the impact of Artificial intelligence (AI) on day-to-day mathematical research.

The IMU Executive Committee and its Committee on Publishing (CoP), chaired by Ilka Agricola, have followed the development of the declaration closely. With its publication, I can now announce that the IMU endorses the Leiden Declaration on Artificial Intelligence and Mathematics.

I invite you to read my [editorial](#) of IMU News 137, which contextualizes and summarizes the declaration, and further expands on the IMU's endorsement of it.

Regards

Christoph Sorger
Secretary General of the International Mathematical Union
