

- ➔ A global community devoted to research and development in mathematics education at all levels
- ➔ Founded in 1908 in during the 4th International Congress of Mathematicians in Rome
- ➔ Around 90 member countries
- ➔ A commission of the International Mathematical Union (IMU)

MEMBER COUNTRIES

9 Thematic Affiliate Organizations

CIEAEM, HPM, ICTMA, ISDDE, ISGEm, IOWME, MCG, PME, WFNMC

8 Regional Affiliate Organizations

ADiMA, AFRICMA, CIAEM/IACME, CIBEM, EARCOME, EMF, ERME, MERGA

KEY ACTIVITIES AND PROGRAMS:

International Congress on Mathematical Education (ICME)

- ➔ The largest international conference on mathematics education
- ➔ Held every four years
- ➔ Features plenary lectures and panels, Topic Study Groups, Discussion Groups, posters, national presentations

ICMI Studies

- ➔ Each Study focuses on a topic of current interest in mathematics education.
- ➔ Built around an international conference with invited contributions from emerging and established scholars
- ➔ Culminates in the preparation of a published volume reflecting current themes and future directions

Awards

- ➔ Felix Klein Award for life-time achievement in mathematics education research
- ➔ Hans Freudenthal Award for outstanding contributions of an individual's theoretically well-conceived and highly coherent research program
- ➔ Emma Castelnuovo Award for excellence in the practice of mathematics education

Major Projects

- ➔ Capacity and Networking Project (CANP) - The Mathematical Sciences and Education in the Developing World
- ➔ ICMI Awardees Multimedia Online Resources (AMOR)

Membership and Communication

- ➔ Around 90 member countries
- ➔ ICMI newsletter published four times per year
